

## A Prayer for Using Technology

Creator God,  
Thank you for evolving technologies that spread knowledge and connect us with others.  
Help me to wisely choose and consider the content I seek out and consume online.  
Inspire me to reach out to others in the digital world with a spirit of love.  
Remind me to use emerging technologies to further spread your Gospel.  
Guide our young people, so that the hours they spend in the virtual world are moments when they come to know Christ more deeply and act as disciples.  
In your wondrous name, I pray.  
Amen
